

duPLIX DVR DATA RECOVERY

PORTABLE DRIVE DUPLICATION

OVERVIEW

duPLIX is a forensic tool that copies exact data from one hard drive to another without altering the state of any information. Once copied and verified, the data can then be accessed with ease, regardless of file system type or data format. Using DCR PRO or ViewSTATION; access, browsing, analysis, and playback of video footage is simple and straight-forward.

- Work on original or create identical working copy hard drives
- Duplicate data from hard drives, regardless of system type
- DCR & ViewSTATION allow viewing or copying of data to a local or network storage devices
- Batch mode converts all files to standard video formats for viewing or DVD production

duPLIX and DCR PRO are now available in a new portable ruggedised console, equipped with a 10" LCD collapsible touch-screen, CD/DVD ROM drive and various media slots. The entire unit has a weight of just 7kg and is ideal for portable use.
