

OVERVIEW

ViewSTATION is a revolutionary yet simplistic approach to replaying all types of analog & digital CCTV video media. Its innovative navigation allows complete access to all levels of users which dramatically reduces the backlog of level 1 CCTV video processing, as police users can now extract backlog of level 1 CCTV video processing, as police users can now extract evidence in a very short period of time. ViewSTATION has been in successful operation for several years at police divisions and custody suites. It has become a vital tool in quickly identifying suspects and immediately producing video evidence.

KIOSK

The ViewSTATION is available in a touch-screen desk-based format, which incorporates Vision Base digital format recognition technology, with a powerful system and DVD rewriter, secured into a rugged touch-screen console.
