

CCTV Replay System

OVERVIEW

ViewSTATION is a revolutionary yet simplistic approach to replaying all types of analog & digital CCTV video media. Its innovative navigation allows complete access to all levels of users which dramatically reduces the backlog of level 1 CCTV video processing, as police users can now extract backlog of level 1 CCTV video processing, as police users can now extract evidence in a very short period of time. ViewSTATION has been in successful operation for several years at police divisions and custody suites. It has become a vital tool in quickly identifying suspects and immediately producing video evidence.

RACKMOUNT

The ViewSTATION Rackmount is a rugged 19" touch-screen system designed with the frontline officer in mind. The lockable unit comes fully equipped with high specification hardware, allowing the user to process, copy and output evidence within minutes.
